New ConTex-Commentary - issued:	11.03.21
<p>The New ConTex shows no signs of stopping with another 7.2% gain compared to last week and all sizes registering increases. Figures in the Month-on-Month column are all up by double digit numbers.</p> <p>Lack of supply is very obvious, particularly for the larger sizes as there are hardly any vessels available above 4,000 TEU. Panamax vessels for example are already in discussion for Q2 2021 positions and beyond. Several segments also have very low activity due to the scarce availability.</p> <p>Looking at the year-on-year numbers, some segments are up by more than 100% on the March 2020 figures. Both 3,500 TEU and 4,250 TEU are even 1.5 times higher. The lowest Y-o-Y increases can be observed in the 1,100 TEU 12 months segment (84%) and 6,500 TEU size (85%), which however is still a significant improvement.</p>
